

PUBLIC NOTICE:

NOTIFICATION OF REPAIR WORK TO THE EXIT SIDE AUTOMATIC BOOM BARRIER AT FORBES BORDER POST 27 MAY 2023 TO 5 JUNE 2023

The Zimbabwe Revenue Authority (ZIMRA) wishes to advise all travellers, importers, exporters, transporters, clearing agents and the general public that there will be repair work to the **Automatic High-Rapid Speed Boom Barrier** at Forbes Border Post for a period of **10 days** from **27 May 2023 to 5 June 2023**. These repairs, which require the temporary closure of the exit channel from Zimbabwe towards Mozambique, will have an impact on the border post's traffic handling capacity during the indicated period. The eastbound traffic lane will be closed to all traffic to pave way for the repair work.

To manage the effects of this disruption, a temporary bypass road will be constructed to facilitate movement of all exit traffic through Forbes Border Post. This bypass will also take up additional and significant portions of the current working and parking space. Measures will be in place to minimize the impact of the overall exercise.

All stakeholders are requested to comply with traffic directions and instructions given by the officials on the ground who have been tasked with managing the effective movement of both incoming and outgoing traffic during the specified period.

The Authority regrets any inconvenience caused to all valued stakeholders but believes that these repairs are necessary, as they will go a long way in assuring efficient and effective traffic management once the planned work has restored service to the affected point. The Zimbabwe Revenue Authority remains committed to ensuring that the impact of the planned work will be minimal to ensure effective business continuity.

Should any stakeholder experience challenges related to these processes during the affected period, the Station Management team whose names and contact details are given below will be available to intervene and assist:

- **Mr C. G. Marekera +263712424745**
- **Mr C. Chaukura +263772403623**
