

PUBLIC NOTICE IMPLEMENTATION OF AUTOMATED E-ROAD CARGO MANIFEST

The Zimbabwe Revenue Authority (ZIMRA) wishes to advise its valued clients that due to the late influx of applications by transporters for profiles to capture e-road cargo manifests, processing of these applications may be delayed due to the large numbers received.

In order to facilitate trade and ensure that traffic does not build up at the Ports of Entry, manual road manifests are going to be accepted and processed only for transporters who have evidence of submission of an application for e-road Cargo Manifest profiles.

This evidence can be in the form of an email proving submission of the application to ZIMRA Customs Automation Team.

If there are any further clarifications required please contact Customs Automation team on email address CustomsAutomationTeam@zimra.co.zw and the following Customs Automation team members on the following cellphone numbers:
